## EDUCATION

Canadian Institute of Technology, Tirana, Albania

Bachelor, Software Engineering

January 2017

THESIS - Building a web framework in Go

## PROFESSIONAL EXPERIENCE

*Full-stack web developer*

June 2015 - May 2016

Dominusoft, Tirana, Albania

- Built a platform in NodeJS used by a private university in Albania as a way to attract/manage startups. Developed a mobile application using IONIC framework to track employees.

*Full-stack web developer*

FCEServices

June 2016 - December 2016

- Managed various Linux servers used in production. Developed tools to ease deployment in Go. Developed a social network like platform for tourists and tour companies.

*Full-stack web developer*

Cribitt.com

January 2017 - Present

- Implemented new features on online payments using Stripe and online leasing using Docusign. Developed different APIs, optimized and documented existing codebase. Built an app using Ionic framework which communicated with a NodeJS backend and displayed stats represented in graphs and tables.

## PROJECTS

- Uber like app for cooks built with React Native and Firebase.
- Employee tracking system built with Ionic/AngularJS.
- Startup management/funding platform built in Go and PostgreSQL.
- Face recognizer in OpenCV and Qt
- Web app for food/beverage distributors in Angular 4

## INTERESTS

Swimming, Traveling, Autonomous Cars, Artificial Intelligence, Image Processing
